Breathing-Air Filtration and Distribution Systems

BREATHING-AIR FILTRATION SYSTEMS

- Portable BA filtration cabinets
- 3 stage filtration comprising pre, coalescing and activated carbon filters
- Up to 5 outlets with total output capacity of 990 l/min
- Pressure regulator
- Automatic condensate collection system

BREATHING-AIR FILTRATION WITH CO AND CO₂ SUPPRESSION

- The ideal breathing-air purification system for those working in areas where there is a risk of higher than normal levels of CO or CO₂ being ingested into the compressed-air supply
- Mobile systems with pressure swing dryer and hopcolite filter for CO and CO₂ suppression
- 2 x CEJN compatible outlet version has rated capacity of 450 l/min, 4 x CEJN compatible outlet version has rated capacity of 950 l/min
- Mounted in a tough polyurethane housing with virtually no ferrous components
- Available for hire with breathing-air masks and hoses

Breathing-Air Filtration and Distribution Systems

BREATHING-AIR DISTRIBUTION

- Breathing-Air Distribution Manifolds
- 4 x outlet Digital Flow Distribution Cabinets with built in mass flow meters and configurable alarm settings
- Anti-static rubber and PVC breathing-air hoses

LARGE CAPACITY BREATHING-AIR FILTRATION SYSTEMS

- Portable breathing-air filtration systems with CO and CO₂ suppression
- Output capacity of up to 2,973 litres per minute at 7 bar
- Requires a 110V, single phase, 50 Hz power supply
- Available with matching BA distribution hoses
